Learning Beyond the Classroom

Learning is most meaningful when students connect classroom concepts with everyday experiences. Encourage your child to notice sounds around the home, identify root words while reading, and practice simple addition and subtraction calculations.

Student Recognition and Reward System

Students can earn Golden Tickets for positive behavior, active participation, academic progress, and completing tasks. Students who collect 10 tickets over the month receive a reward for their consistent efforts.

STUDENTS ACHIEVEMENTS

Students explored new concepts and developed their skills across all subjects.

Mathematics:

Students practiced representing missing numbers and operation signs with symbols in addition and subtraction calculations.

English:

Students identified root words in sentences and strengthened their understanding of word structure and vocabulary.

Science:

Students described sound production through vibrations and analyzed vibrations in different sound-producing objects.

Arabic:

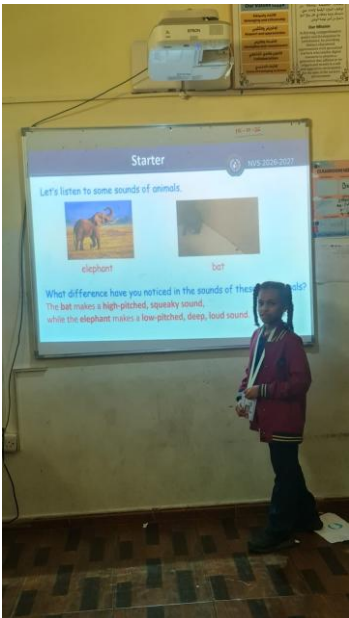

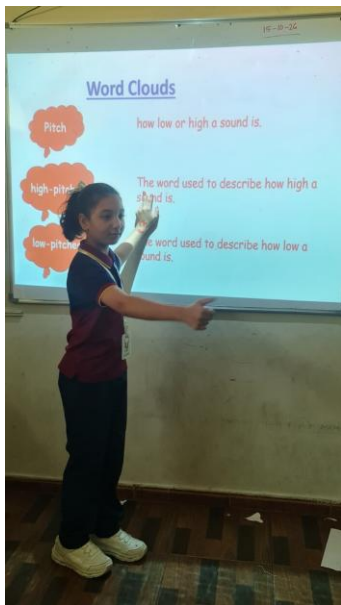

Students practiced distinguishing between (هـ) the haa and (ة) the ta marbuta at the end of nouns.

	<p>Overall, students developed their mathematical reasoning, language skills, and scientific understanding through the topics studied.</p>
