

Grade 12
Weekly Plan
From 13/09/2026 to 17/09/2026

Subject	Portion
English	Unit 7.1 How has language changed? LO: To understand how and why the English language changes over time and identify examples of language change. Pride and Prejudice: Introduction to the characters, Setting, Plot etc LO: To explore the characters, setting, plot, and key themes of <i>Pride and Prejudice</i> and understand their significance in the novel.
Maths	Book: Pure Mathematics 3 Chapter: Functions and graphs Topic: Composite functions LO: - To find the composition of linear functions: find an equation. - To find the composition of linear functions: find a value. - To find the composition of linear and quadratic functions: find an equation. - To find the composition of linear and quadratic functions: find a value. Topic: Inverse functions LO: - To identify inverse functions. - To find inverse functions.
Physics	5A – Further Momentum Lo : - Explain the difference between elastic and inelastic collisions. - Apply conservation of linear momentum to determine energy changes in collisions. Home work will be given on Classera.
Chemistry	11A-Further kinetics LO: Calculate order of reaction Analyse rate equations and mechanism Homework will be given in classera
Biology	5A Photosynthesis Learning outcomes ➤ Compare cyclic and non-cyclic photophosphorylation. ➤ Analyze the Calvin cycle Homework will be posted on Classera

Computer	Ch 15: Project management LO: • Define the Critical Path Method (CPM) and its primary components (activities, durations, dependencies). • Explain the core purpose of CPM and discuss why project managers use it to plan and monitor schedules. • Create network diagrams using tasks and nodes. • Calculate the critical path and minimum project duration from the network diagram. Lab: Ch 15: Project management Create a gantt chart and explore its properties. Diagnostic test
Business	Chapter 5: Growth LO1: Define and explain economic growth and how it is measured. LO2: Analyse the main causes and consequences of economic growth.
Accounting	Unit 2 – Limited Companies 2. Capital Structure of Limited Companies LO1: Identify the different sources of capital available to limited companies. LO2: Explain and calculate the key elements of a limited company's capital structure.
Economics	Chapter 3: Behavioural Objectives and Principal-Agent Problem 1. Explain satisficing and behavioural theories of the firm using appropriate economic vocabulary. 2. Analyse and evaluate the divorce of ownership from control and the principal-agent problem.
